Morbi Nagar Darwaza

Nehru Gate is located at Morbi, Earlier its name was Nagar Darwaza in which ‘Nagar’ means ‘city’ and ‘Darwaza’ means ‘door.’ Later the name was changed to ‘Nehru Gate’ to pay courtesy to Pandit Jawaharlal Nehru. The exotic gate comes with a central clock tower, which still works. The gate is made out of stone and represents Rajput architecture.

The Nehru Gate is made out of stone using elements of Rajput architecture with central clock tower, while another one uses elements of western architecture and is capped by a three-storyed cast iron frame structure with a dome.

The Egyptian pyramids are ancient pyramid-shaped masonry structures located in Egypt. As of November 2008, sources cite either 118 or 138 as the number of identified Egyptian pyramids. Most were built as tombs for the country's pharaohs and their consorts during the Old and Middle Kingdom periods.

Wood

Wood is a porous and fibrous structural tissue found in the stems and roots of trees and other woody plants. It is an organic material, a natural composite of cellulose fibers that are strong in tension and embedded in a matrix of lignin that resists compression.
