WE ARE...

The Newark Group is one of the most dynamic & productive brands of the modern ceramic world that was brought to life by a visionary, Mr. Rajan Patel and Pratik Patel. Over the years the company has developed manifold. Since 2014- the inception year, to today we have expanded our reach to national & international arenas with a capillary presence in more than 40 countries with more than 1700 satisfied customers.

Finest skills clubbed with state-of-the-art

technology have helped us to carve a niche, which is stamped by authorities as we are ISO 9001:2008 Certified. Overall the company has marked its position as the leading Manufacturer, Exporter and Supplier of the exquisite Marble Wall Tiles

Newark Group is standing tall and strong on the basis of a robust infrastructure setting that is well rigged with modern technology and apt machinery. The unit is well equipped with the latest digital printing technology, which is imported from Italy. Following stages are undertaken to serve finest quality tiles. The first stage is pressing-the press without mold for large formats makes slabs up to 1200x2400 mm. The second one is decoration that has digital printing and roller systems. We also have Creadigit on board, due to which, the high-resolution decoration is performed.

QUALITY

For us, quality is the top-most priority; hence our tiles are tested for their flatness. After which optical sensors take over for measuring points on the surface to create a matrix. Parameters are compared and the tile is classified. Lastly, Dico Liner optical sensors analyze the surfaces to say goodbye to any cushion or trapezium effects.
